How It Works

Rally Cross is an event where participants compete on a closed course, against the clock and total time taken over the competitive sections of the event determines placing.

Rally Cross is generally held on an unpaved, flat surface, the course consists of straight sections, connecting turns or corners via the use of cones, hay bales or similar objects.

We use rubberized cones to lay out our courses, hitting a cone results in a 2 second penalty added to your total time!

We are volunteers!
Once you are finished doing some laps it will be your turn to go out and marshal the track. Dress for the weather and bring a reflective vest! Radios are supplied
Volunteers are always needed and get sweet perks, reach out to the club and get your rally on!
